*Center for Information Technology Research in the Interest of Society*

I am delighted to hear that CITRIS is co-hosting the upcoming C-GRACE climate meeting in Copenhagen. Your leadership and accomplishments when it comes to our environment have meant a great deal to California, and it is fantastic that your powerful influence is being felt the world over.

Finding solutions to society's challenges is incredibly important work, and when it comes to protecting our natural resources, it is a job the whole world needs to tackle. California is a leader in this endeavor, and I applaud your actions to bring nations together to address one of the most pressing issues of our time. C-GRACE is certainly going to be a huge step in the right direction.

Please accept my best wishes for a very successful and productive meeting. CITRIS keeps California on the cutting edge of technology and innovation, and you are making a difference in our world and keeping that legacy alive and well.

Thank you for all you do, and best of luck in Copenhagen and in the future.

Sincerely,
